À propos de Gold & Wood...

Gold & Wood, une Maison d'Exception qui cultive sa singularité et conjugue Tradition, Héritage et Innovation, Authenticité et Créativité

C'est en 1995 que Maurice Léonard, fondateur-égérie, crée Gold & Wood et implante sa manufacture artisanale à Hosingen au Luxembourg. La mission première de Gold & Wood est de procurer du plaisir et faire rêver autour de la Haute Lunetterie Artisanale et Joaillière. Nos valeurs sont basées sur l'émotion et non sur le besoin.

Les Maîtres Artisans Gold & Wood cultivent la perfection du geste dans les règles strictes de l'artisanat du Luxe. Ils excellent dans le façonnage d'objets d'Exception, conçus dans les matières nobles les plus rares, notamment les essences de bois précieux, la soie naturelle peinte à la main, la corne de buffle d'eau, l'or, les pierres précieuses.

Gold & Wood modèle des objets de désir, toujours empreints d'un savoir-faire singulier.

About Gold & Wood...

Gold & Wood is a Maison d'Exception that cultivates its singularity and personifies Tradition, Heritage, Innovation, Authenticity and Creativity.

In 1995 Maurice Léonard, founder, CEO, and muse, created Gold & Wood and set up his handcrafted factory in Hosingen, in Luxembourg. Gold & Wood's first mission is to provide pleasure and dreams around the craftsmanship of high-end Eyewear and Jewelry. Our values are based on Emotion, not about need.

The Gold & Wood Master Craftsmen cultivate the perfection of this concept through the strictest rules of luxury craftsmanship. They excel at crafting objects of Exception, designed with the rarest of noble materials.

Gold & Wood models objects of desire, always imbued with a singular know-how.
